

IMPORTANT CUSTOMS NOTES:

For deliveries from outside the European Union, you need the green customs sticker (CN 22).

Please fill in: **AMATEUR FILM for development – maximum value EUR 20**

Also, on the **outside** of your letter or parcel, there needs to be added an informal invoice containing the content of your shipment, ANDEC's address and your own address as well as the above note about the amateur film and it's max. value (**AMATEUR FILM for development – maximum value EUR 20**)

Don't send letters with thick padded envelopes! No Jiffy bags, please!

If you don't follow the above recommendations your shipment will most likely be held by German customs and we may have difficulties getting it released. It may also most likely result in at least 35.- € (net) in customs fees collected by DEUTSCHE POST, which will be charged to you in full.

If you send higher value parcels or wish faster processing, we suggest to use a delivery service (like DHL or FedEx) - they will handle the customs transactions for you.
